

Identification and Assessment of Dyslexia

This one-day class created by diagnostic and dyslexia experts provides information about the underlying components of reading that are essential for acquiring adequate reading skills. In addition, participants will learn about the various difficulties students may face in acquiring those skills. Participants will learn about the characteristics of dyslexia using the updated Texas Dyslexia Handbook as a resource. Participants will analyze and interpret real testing data and case studies to determine the student's literacy needs and determine whether the student can be diagnosed with dyslexia.

Dates:

September 23, 2019
8:30 a.m.—3:30 p.m.
