**CLOSE READING OF INCREASINGLY COMPLEX TEXT** \$160

**TOPICS:** Participants learn 1) how to evaluate the quantitative and qualitative complexity of a text with consideration of the reader and the text, 2) how to encourage close reading of a text, and 3) how to select the most appropriate text to increasingly demand more from the reader.

**AUDIENCE:** Grade 3-9 Teachers

**HOURS:** 6 hours

**DEVELOPING ACCURACY & FLUENCY** \$125

**TOPICS:** Accurate, automatic word reading; repeated reading strategies; assessing fluency

**AUDIENCE:** Teachers of first, second, and third grades; tier II and III intervention

**HOURS:** 3.5 hours

**MATERIALS:** *Developing Accuracy and Fluency manual and CD*

**LANGUAGE ENRICHMENT** \$1,020

**TOPICS:** Research continues to emphasize the importance of learning to read by the end of third grade. Language Enrichment is an evidence-based, language arts solution to help students build the skills needed to become successful readers. Language Enrichment is a kindergarten through third grade curriculum that can be used to supplement core instruction or to accelerate learning of students needing intervention. In this interactive and engaging 30-hour workshop, participants engage in inquiry-based learning to master the skills needed to explicitly and systematically teach phonemic awareness, decoding, fluency, oral language, and comprehension. The Language Enrichment curriculum can be used with the entire class, small groups, or individual students in as little as 30 minutes a day.

**AUDIENCE:** Teachers of kindergarten through third grades; tier II intervention

**HOURS:** 30 hours

**MATERIALS:** *Language Enrichment manual, The Colors and Shapes of Language manual and CD, Developing Accuracy and Fluency manual and CD, Scientific Spelling manual, Initial Reading Deck, Multisensory Teaching of Basic Language Skills Activity Book*

**LANGUAGE AND LITERACY FOR YOUNG LEARNERS** \$80

**TOPICS:** High-quality language and literacy environments in the early years promote the development of prerequisite literacy skills such as oral language, phonological awareness, print awareness, and letter recognition. Children who develop these skills arrive at school ready to learn and are on the road to reading success. In the Language and Literacy for Young Learners course, participants will learn how these prerequisite skills can be taught daily in easy-to-implement, 15-minute lessons that integrate science, social studies, and math.

**AUDIENCE:** Teachers of early childhood; Kindergarten and first grade intervention

**HOURS:** 3 hours

**MULTISENSORY GRAMMAR** \$120

**TOPICS:** Words of the English language are traditionally classified as parts of speech based on their usage in a sentence. In the Multisensory Grammar course, participants learn multisensory ways to take this abstract idea and make it concrete, understandable, and fun. Color coding is used to introduce and reinforce the parts of speech. Hands-on activities further students' understanding and sentence pattern cards help with sentence composition, length, and complexity. Participants also learn a strategy for helping students apply their knowledge of the parts of speech in writing a painless paragraph.

**AUDIENCE:** Teachers of first through eighth grades

**HOURS:** 3.5 hour

**MATERIALS:** *Multisensory Grammar manual*

**READING READINESS** \$300

**TOPICS:** Research has demonstrated the importance of phonological awareness, letter recognition, and oral language in the acquisition of reading and spelling skills. In the Reading Readiness course, participants learn activities that will help children develop the critical skills necessary to become fluent readers. All activities are multisensory and can be used with the entire class, small groups, or individual students. Also included is multisensory letter introduction, instant word recognition, and the important component of handwriting.

**AUDIENCE:** Teachers of kindergarten and first grade; tier II and III intervention

**HOURS:** 6 hours

**MATERIALS:** *Reading Readiness manual, Story Retelling manual and picture cards, 1 set plastic alphabet letters, 11in. x 17in. laminated mat and arc, alphabet strip, mirror, sound card, red counters, Reading Readiness schedule*

**SCIENTIFIC SPELLING** \$140

**TOPICS:** Spelling is a skill that needs to be taught formally since students do not always automatically deduce the patterns of the language. In the Scientific Spelling course, participants learn that the formal teaching of reliable patterns and rules enables students to spell a high percentage of English words without memorization. Special memory strategies are taught for irregular words. The information about the English language for spelling allows students to spell accurately and confidently as they write. The same knowledge also reinforces important patterns for reading. A suggested weekly spelling schedule is included showing how spelling can be taught in as few as 15 minutes a day. In Scientific Spelling, students do not memorize a list words, but rather they learn how to spell for a lifetime.

**AUDIENCE:** Teachers of first through eighth grades

**HOURS:** 3.5 hours

**MATERIALS:** *Scientific Spelling manual and reproducible student pages*

**SCIENTIFIC SPELLING - PART 2** \$80

**TOPICS:** Advanced reliable spelling patterns and rules, assessing errors, designing instruction

### Why Neuhaus?

Since 1980, more than 70,000 teachers and their students have benefited from Neuhaus Education Center's systematic, multisensory, evidence-based approach to literacy instruction and basic language skills of reading, writing, and spelling.

### Why Online?

With the development of Neuhaus's online classes, educators have the flexibility of logging into class anytime, anyplace during a session, and working at their own pace. Each course is divided into several sections with quizzes to reinforce the learning.

Online classes reduce the loss of classroom instructional time, integrate easily into professional learning plans, and ensure fidelity of presentation content.

### Literacy Interventionist Program

Deepen your knowledge of structured literacy instruction with coursework, practicum, guided studies, and a Neuhaus staff mentor. This is an online program. See [neuhaus.org/specialprograms](https://neuhaus.org/specialprograms).

Neuhaus Education Center is a 501(c)(3) non-profit organization dedicated to promoting reading success.
